Projects-

Dentamitra -

Dentamitra is an oral health tracking app with artificial intelligence which has a scanner to detect cavities and other issues. And also it has the admin panel which is a web app where dentists can schedule the meetings booked by the user from the dentamitra app. I got an opportunity to work with a web app and the native app both of dentamitra.

Worked on -

Website - <https://dentamitra.com/>

Mobile Application -

<https://play.google.com/store/apps/details?id=dentamitraapp.com>

And Web App (Admin panel)

Technology - React JS, Ionic React.

Responsibilities -

- Integrated new features like Payment, Zoom Call, Whatsapp and Call in mobile app and web app both.
- Worked in Appointment and Booking Functionalities.

Blue Ocean -

An E-Commerce Application where we can buy Medical and health-care Items, have the option of saving into a cart, like the product and do payment.

- Built reusable cards and components of a product having UI like name, price and rating likewise worked on entire reusable components possible of the app.
