- Developed the structures & layouts as per user requirements with 100% clients satisfaction
- Developed the structures & layouts as per user requirements with 100% clients satisfaction

PROJECTS

Project 1
Note Taking Application

- View here - https://e-notes-mine.vercel.app/
- e-Notes is a note-taking app enabling users to create, read, update, delete, archive, pin, unpin, and customize note backgrounds. It uses Vite, React, and TypeScript on the frontend, and Express, Node.js, and MongoDB on the backend, with styling by Chakra UI and Tailwind CSS. State management is handled via Redux Toolkit.

Project 2
Component Library

📅 Project duration   📍 3 days

- view - https://pencil-ui.netlify.app/
- A Component Library like your own bootstrap, where you have all the predefined classes and you just have to use those classes and you are ready to go!

Project 3
E-commerce Application

- View here - https://ebazaar.netlify.app/
- e-Bazaar is an e-commerce app offering features like wishlisting, filtering, searching, and adding items to the cart. It provides a seamless shopping experience, allowing users to easily find and save products for future purchases.
